Premium Packaging & Printing Solutions

The image features a black background with decorative, flowing gold lines that resemble waves or brushstrokes, primarily concentrated on the right side. The text is positioned in the center-right area, overlaid on these gold waves.

**OUR STORY &  
PHILOSOPHY**

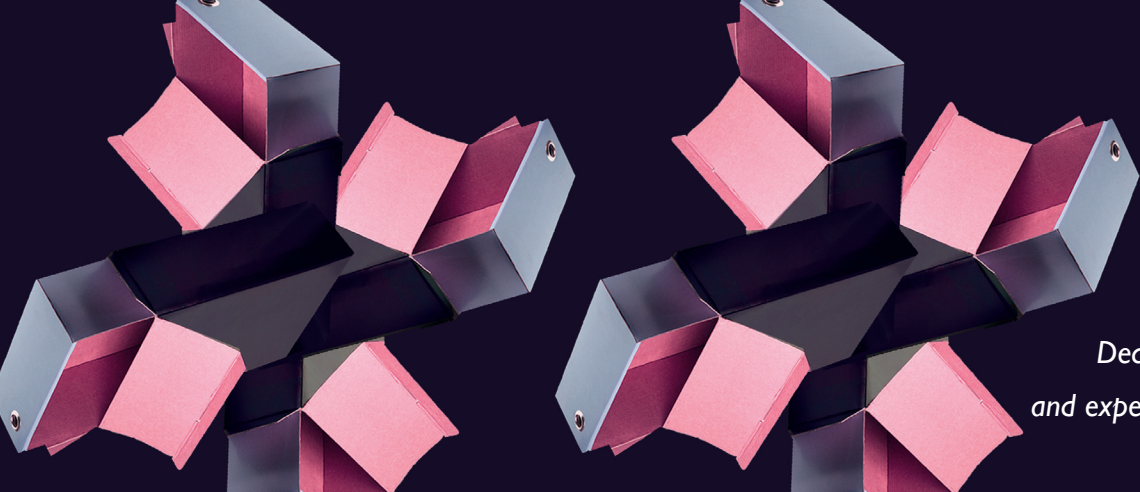

**MORE THAN  
A PRINTING HOUSE**

*We turn ideas into packaging experiences,  
combining creativity, technology and expertise*

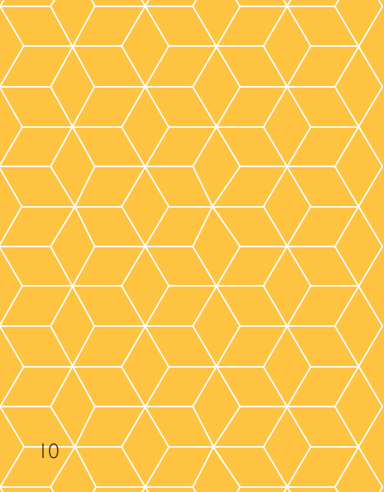

**We are more than a printing house.** We are a creative production partner, bringing ideas to life through expertise, precision and craftsmanship. Since 1990, we have built our reputation on uncompromising quality, reliability and attention to detail.

We welcome projects that challenge us to think differently. Complex requirements allow us to draw on decades of experience and technical expertise to create solutions with purpose and precision. Every product we deliver carries the quality and craftsmanship that define Colorist Akademi.

**A JOURNEY OF  
CRAFTSMANSHIP**

*Decades of passion, experience,  
and expertise in premium packaging.*

## A Journey of Passion and Precision

Since 1990, Colorist Akademi has been a trusted name in the printing and packaging industry, recognised for quality, precision and a customer-focused approach. Operating globally from Türkiye, we specialise in premium printing and packaging solutions, with particular expertise in the cosmetics and food sectors.

Our clients' business objectives shape our priorities and approach. By combining decades of industry experience with state-of-the-art integrated machinery, we deliver premium packaging solutions that combine exceptional quality with commercial efficiency.

## **MILESTONES OF QUALITY**

*Celebrating our award-winning  
packaging designs and achievements.*

## Our Milestones of Award-Winning Excellence

True quality is not simply claimed; it is recognised and rewarded. The prestigious awards we have received over the years reflect our commitment to design, innovation and production excellence.

A series of flowing, wavy lines in a metallic gold color, resembling liquid or smoke, moving from the right side of the frame towards the center. The lines are composed of many thin, overlapping strokes, giving them a textured, brush-like appearance. They curve and undulate across the dark background, framing the text on the right.

**TECHNOLOGY &  
SPECIAL APPLICATIONS**

**INTEGRATED PRODUCTION CAPABILITY**

### **Offset Printing:**

2 printing presses × 16,500  
sheets per hour  
Total capacity: 33,000  
sheets per hour

### **Rigid Box Production:**

5,000 rigid boxes per hour.

### **Box Folding:**

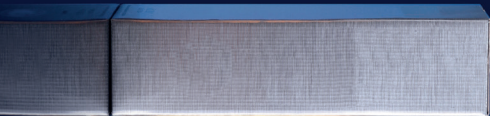

500,000 folded boxes per  
hour.

## **Integrated Production for Consistent Quality**

Our industry demands exceptional quality, precision and advanced technology. At Colorist Akademi, we offer our global partners the advantages of an integrated production system supported by advanced technology.

Our state-of-the-art, fully automated machinery enables high production capacity while maintaining speed, cost efficiency and consistent quality.

Advanced technology also allows us to produce top and bottom box components simultaneously, ensuring precise alignment, consistent fit and efficient rigid-box production.

***SPECIAL FINISHING &  
PREMIUM APPLICATIONS***

## Where Technology, Craftsmanship and Design Come Together

Our production strength lies in the seamless combination of technology, design and craftsmanship. To create distinctive premium packaging, we offer a broad range of specialised finishing techniques and bespoke applications.

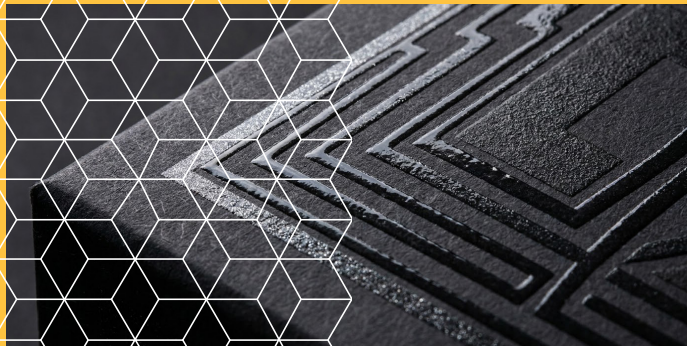

## Foil Stamping & Embossing:

Hot foil stamping, letterpress, precision embossing and debossing

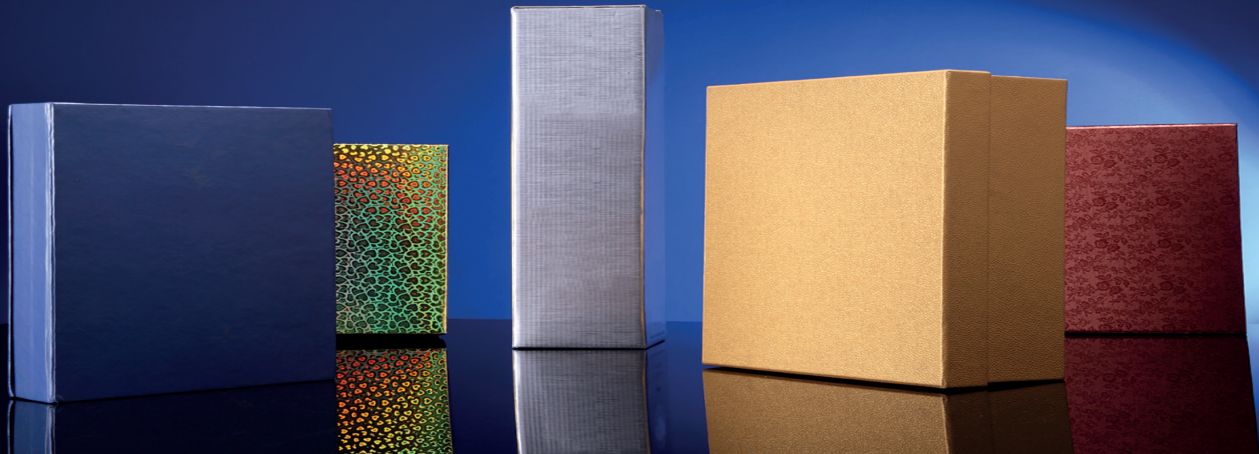

### **Speciality Varnishes & Print Effects:**

UV and creative-effect varnishes, including raised, metallic, textured and selective spot-varnish effects.

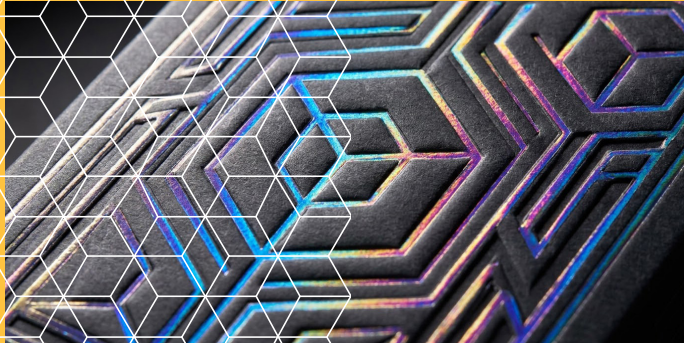

### **Advanced Films & Laminations:**

Matt and gloss lamination, metallised films, coloured cellophane and soft-touch coatings.

### **Advanced Printing & Ink Technologies:**

Hybrid printing, 3D/4D lenticular effects, thermochromic and scented inks, transfer applications, holographic effects, Iriodin pigments and security printing.

### Structural Finishing & Binding:

Automated collating, bespoke die-cutting, index cutting, thread and wire stitching, perfect binding, and custom hardback or spiral binding.

**PREMIUM  
PACKAGING SOLUTIONS**

**FOLDING CARTONS &  
UV-PRINTED PACKAGING**

## Premium Packaging Across Diverse Substrates

Packaging is often the first physical expression of your brand's quality. At Colorist Akademi, we produce premium folding cartons and UV-printed packaging designed to reflect and enhance your brand's positioning.

coloristakademi  
Premium Packaging & Printing Solutions

Using advanced UV and conventional offset printing technologies, we print on a wide range of premium substrates:

**Substrates:** American Bristol, FBB (folding boxboard), metallised board, PVC, PET and chromo board.

**Board Weight Range:** 180–450 gsm, selected to suit the structural requirements of each product.

From detailed cosmetics packaging to premium retail cartons, our precision-cut solutions are designed to deliver clean definition, structural accuracy and strong shelf presence.

Premium Packaging & Printing Solutions

**RIGID BOXES**

## Delicate Structures, Engineered for Strength

Beyond their strength and durability, rigid boxes are sophisticated structures designed to create a premium unboxing experience. Their production requires extensive experience, meticulous craftsmanship and advanced technology.

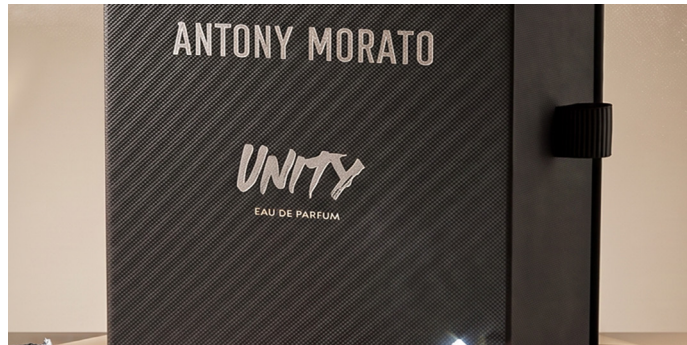

Using fully automated, state-of-the-art machinery, we deliver the precision and consistency required by leading brands:

- **Simultaneous Production:** Our technology enables simultaneous production of top and bottom box components, supporting precise alignment, consistent fit and efficient production.
- **Flexible Board Thickness:** We produce wrapped greyboard rigid boxes using board from 0.8 mm to 5 mm thick.
- **Premium Partnerships:** Our focus on precision, consistency and premium finishing has made us a trusted packaging partner for leading local and international brands.

**PRINTING SERVICES**

## Beyond Packaging: Tailored Printing Excellence

Although premium packaging is our core area of specialisation, our expertise extends across a wide range of print services. Every project is delivered with the same focus on precision, quality and attention to detail.

coloristakademi  
Premium Packaging & Printing Solutions

We treat every leaflet, brochure, corporate communication and customised print project as an opportunity to apply our decades of industry experience. From initial prepress analysis through to final finishing, we produce promotional materials with a consistent focus on quality and precision.

**COASTERS**

## Coasters: A Flexible Canvas for Brand Communication

More than a functional accessory, a coaster provides a versatile platform for brand messaging and creative promotional concepts. Depending on the campaign, coasters can support premium, informative or playful brand communication.

coloristakademi  
Premium Packaging & Printing Solutions

Produced to Colorist Akademi's quality standards, our Coasters offer:

- Premium Construction: Produced using high-quality paper-based materials, our coasters are designed for durability and reliable performance.
- Versatile Formats: Beyond traditional coasters, our production capabilities extend to bespoke shapes and promotional applications, including door hangers, desktop games and three-dimensional display concepts.

# **PRINTING PROCESSES**

**PREPRESS & GRAPHIC ANALYSIS**

## The Blueprint for Precision: Meticulous Prepress Analysis

Great packaging starts before it reaches the printing press, with careful preparation and precision at the prepress stage. At Colorist Akademi, every project undergoes detailed prepress and graphic analysis to ensure accurate translation of the design into production.

coloristakademi  
Premium Packaging & Printing Solutions

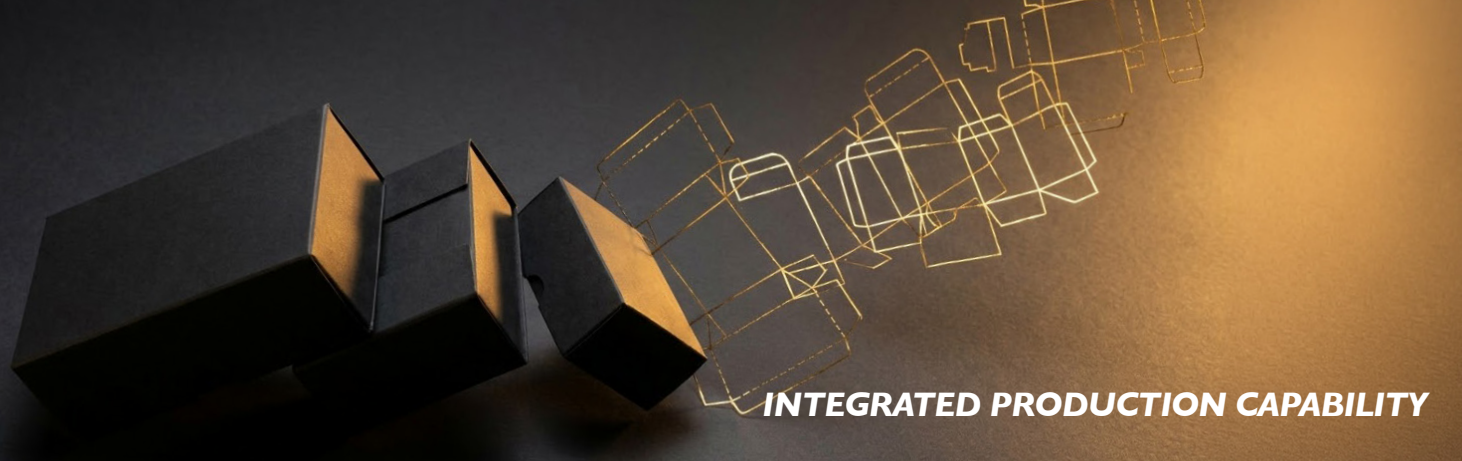

Our prepress specialists examine every detail:

**Technical Calibration:** Colour profiles, bleed lines, structural die-cuts and folding tolerances are analysed using advanced software.

**Material Compatibility:** We assess how customised inks, holographic effects and varnishes interact with the selected substrate, helping to minimise unexpected results during production.

This disciplined preparation supports consistent, high-quality production.

**INTEGRATED PRODUCTION CAPABILITY**

## Where Advanced Technology Meets Craftsmanship

Our production floor is equipped with advanced KBA printing machinery, operated by experienced print specialists with a strong focus on precision and quality. This integrated production capability enables us to manage high-volume, complex and multidimensional projects under one roof with speed and consistency.

**Advanced KBA Machinery:** High-speed, multicolour printing capabilities with inline drying and UV systems for rapid curing and sharp print definition.

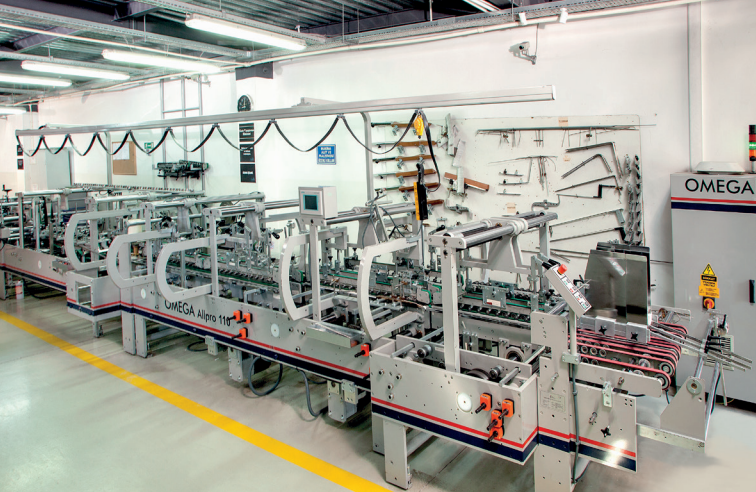

**Comprehensive Production Cycle:** From prepress analysis through automated post-print box assembly and premium finishing, we manage the entire workflow in-house.

A great print and a great coffee have something in common. Both reveal their true quality through expertise and craftsmanship. Our position as a trusted printing partner in Türkiye and international markets is built on decades of industry experience.

**We look forward to welcoming you for a coffee.**
